# A NOTE FROM LEADERSHIP

We are happy to share the 2024 annual report for Advantage Mozambique. It was a productive second year of operations with highlights including:

- Financial support to three Mozambicans currently studying and playing collegiate tennis in the US.
- Ongoing partnership with the Mozambique Tennis Federation to support the national junior tennis program and promote the sport nationally.
- Establishment of a Junior Ambassador Program to provide young people in the U.S. the opportunity to support our mission and build their community service resumes.
- The addition of Wan-Yi Sweeting, a former professional tennis player and Senior Director of Marketing and Partnerships at Skechers, to our volunteer leadership team.

We're extremely grateful for the over 35 individuals and foundations whose contributions in 2024 allowed us to expand our scope of work. As detailed later in this report, we have maintained very low administrative costs and are striving to maximize the impact of donated funds. Please consider renewing your support in 2025, follow us on social media, and help spread the word about our organization and mission. Thank you.

Chris Buck, President
